

WONDERMINT NCII REPORTING POLICY

Effective Date: 29 March 2026

This document will guide you on how to report Non-Consensual Intimate Imagery.

Wondermint does not allow non-consensual intimate imagery, including real, edited, AI-generated, or synthetic intimate depictions of a real person shared without consent.

To request removal, email ncii-violation@wondermint.now

Please include:

- Your name. Typing your name serves as your electronic signature.
- A way to contact you.
- Your relationship to the person depicted: you are the person depicted or their authorized representative, including a parent or guardian.
- The Wondermint URL, asset ID, creator profile, or other information that helps us find the content.
- This statement, or your own words: "I have a good-faith belief that this content depicts me, or the person I represent, in an intimate way and was shared without consent."
- Whether the person depicted is under the age of 18 or may be under 18.
- Any other Wondermint links where the same content appears.

Do not send the image or video. Do not attach, upload, or forward intimate media to prove your report. If the person is or may be under the age of 18, do not send the content under any circumstances.

Wondermint removes non-consensual intimate imagery, and known identical copies we can find, within 48 hours of receiving a valid request, consistent with the Take It Down Act. We may restrict content while we review it.

Anyone may report suspected NCII to us, but a valid removal request must come from the person depicted or their authorized representative.
